Preliminary Scientific Program
WELCOME TO ESOPRS CERNOBBIO 2011

Dear ESOPRS Members and Guests,

On behalf of the European Society of Ophthalmic Plastic and Reconstructive Surgery (ESOPRS) we welcome you to the 29th Annual Meeting, September 15-17, 2011, Cernobbio, Italy.

On Thursday, September 15, the course on “Current Concepts in Ophthalmic Plastic and Reconstructive Surgery” will take place in the same venue of the Meeting. This is a specially formatted course, held by a world renowned faculty, and aimed at reviewing the state of the art of our specialty.

The Annual E.S.O.P.R.S. Meeting follows as usual on Friday and Saturday. Its traditional program, based on sessions of free communications on every aspect of Ophthalmic Plastic and Reconstructive Surgery, this year has been enriched by four small symposia and three invited lectures, with the participation of many colleagues also from extra-european countries.

The traditional “Mustardé Lecture” this year is entitled “A Short History of Contemporary Oculoplastic Surgery” and will be delivered by Maarten P Mourits, Director of the Orbital Centre, Academic Medical Centre, University of Amsterdam, The Netherlands, and Past-President of the Society.

The scientific meeting will take place in the Congress Center Spazio "Villa Erba", a steel and glass construction in the park of the beautiful 18th century mansion "Villa Erba", which borders lake of Como and was owned by the famous Italian film director Luchino Visconti.

The “Welcome Cocktail” will be held, weather permitting, in the the park between “Villa Erba” and the Meeting venue, and the “Social Dinner” will be inside the old Villa. Everything is at walking distance from most hotels and Cernobbio. We hope, in this way, that you will be able to taste the life and ambiance of the beautiful lake region as well as enjoy the scientific program.
